

SMART HORSE

Eyes On Inspiring Technology
BOX MOTE

Box Monitoring

Thanks to EOIT technology, you can monitor the parameters of the box and define several alerts depending on the values of the sensors in order to improve the comfort of your horse.

Sensors

- ✓ Temperature
- ✓ Humidity
- ✓ Water Consumption
- ✓ Opening/Closing Door
- ✓ Access Control

Description

The Mote Box is an electronic device specifically designed to monitor the stables with the Smart Horse application. However, it is scalable to many applications.

Features

- ✓ Low Power
- ✓ Battery Power
- ✓ Solar Panel Power
- ✓ Radio Communications
- ✓ Sensors Reading
- ✓ Alerts Generation
- ✓ Modular Device
- ✓ IP 67
